ACKNOWLEDGEMENTS

The PPRC is indebted to many individuals for assistance with this workbook. Funding was provided by a grant from the U.S. Environmental Protection Agency.

The PPRC wishes to thank the following individuals for their willingness to share the information, ideas and suggestions that helped shape the content of this workbook:

- Bernard Brady, Washington Department of Ecology
- Bob Burmark, Washington Department of Ecology
- Cooper Ewing, Chinook Press in Seattle, Washington
- Jeff Hays, Quebecor Integrated Media in Fife, Washington
- Scott Lytle, Alaska Department of Environmental Conservation
- Doug McRoberts, Idaho Division of Environmental Quality
- John Nagy, Owner of Alphagraphics in Seattle, Washington
- Terry Obtshka, Oregon Department of Environmental Quality
- Brian Thompson, Thompson Printing Company in Seattle, Washington
- Rick Volpel, Oregon Department of Environmental Quality
- Jerry Warden, Vanguard Press Inc. in Seattle, Washington

This workbook relied on the following resources:

- *Pollution Prevention Manual for Lithographic Printers*, Iowa Waste Reduction Center, 1995
- *Pollution Prevention for the Printing Industry: A Basic Reference for Pollution Prevention Technical Assistance Providers*, Illinois Waste Management and Research Center, 1996
- *Green and Profitable Printing*, University of Wisconsin-Extension, Solid & Hazardous Waste Education Center, 1996
- *A Guide for Screen Printers*, Washington State Department of Ecology, 1996
- *A Guide for Lithographic Printers*, Washington State Department of Ecology, 1996

DISCLAIMER

The Small Business Assistance Programs in Idaho, Oregon and Washington, and the Compliance Assistance Program in Alaska, were created to provide assistance to small businesses concerning the requirements of the Clean Air Act Amendments of 1990. This compliance and pollution prevention workbook was created for the programs to provide multi-media compliance and pollution prevention assistance, and to aid small business owners with questions concerning environmental issues. The workbook is not a comprehensive document covering every environmental regulation that could affect a small business. It is the responsibility of the owner/operator to stay abreast of changes in the regulations that govern the printing industry.

TABLE OF CONTENTS

Introduction	1
Checklist	2
1. CREATING WASTE INVENTORY LISTS	3
Hazardous/Solid Waste Inventory	7
Air Emission Sources Inventory	8
Water Pollution Sources Inventory	9
2. UNDERSTANDING HAZARDOUS WASTES	10
Determine if wastes are hazardous or non-hazardous	10
Quantify monthly generation of hazardous wastes	14
Determine hazardous waste generator status	15
Identify requirements for being a hazardous waste generator	16
3. UNDERSTANDING AIR EMISSION SOURCES	20
Determine if process materials contain regulated chemicals	20
Estimate annual use of regulated chemicals	22
Determine air emission source status	26
Identify requirements for using regulated chemicals	27
4. UNDERSTANDING WATER POLLUTION SOURCES	29
Understand responsibilities and requirements for managing water pollution sources .	29
5. IDENTIFYING AND IMPLEMENTING BEST MANAGEMENT PRACTICES AND POLLUTION PREVENTION OPPORTUNITIES	31
Using Best Management Practices	31
BMP Checklist	33
A. Imaging	37
B. Pre-press	42
C. Press	43
D. Post-press	46
Using Pollution Prevention Opportunities	48
Pollution Prevention Preparation Checklist	51
A. Imaging	52
B. Pre-press	53
C. Press	54
D. Post-press	58
Summary of Best Management Practices and Pollution Prevention Opportunities	58
6. CONTINUING TO IMPROVE YOUR PRACTICES	59
Evaluate Your Practices Periodically	59

APPENDIX A: Internet Resources	60
APPENDIX B: Contacts List	63
APPENDIX C: Weekly Facility Inspection Checklist	66
APPENDIX D: Hazardous Air Pollutants	67
APPENDIX E: Other Federal and State Regulations	68
APPENDIX F: Publications	71
